AUTO ACCIDENT

Speedy Touring Car on Wrong Side of Street Almost Runs Down Arthur McNamara.

Another instance of reckless automobile driving was brought to light last evening when Arthur McNamara barely escaped from being run down by a big touring car which was dashing up Alakea street, on the wrong side of the street. McNamara came out of a house near the corner of Alakea and Beretania, and, noticing his car at the switch, started to run towards it. He was on the left side of the street, but had it not been for the shouts of the street-car conductor, who saw the impending danger, he would undoubtedly have been run down by the heavy machine.

"It was about 9 o'clock in the evening—a time when automobilists should be particularly careful when nearing a corner and especially a street-car crossing,—when I left the house between Beretania and Young streets, and began to run up on the left side of the street for my car. I heard the shouts of the conductor barely in time to dodge, and the automobile missed me not more than a foot. I could not see who was driving the car, so fast was it going. I had never dreamed of being in the way of hacks or autos coming from behind, for I was on the proper side of the street, and, by all the laws of courtesy and safety, all vehicles should go up on the other side. Again, the machine was running at a high rate of speed, which should not be allowed when passing cars or crossing switches where cars are standing."

McNamara is connected with the Dairymen's Association.
